BASKETBALL

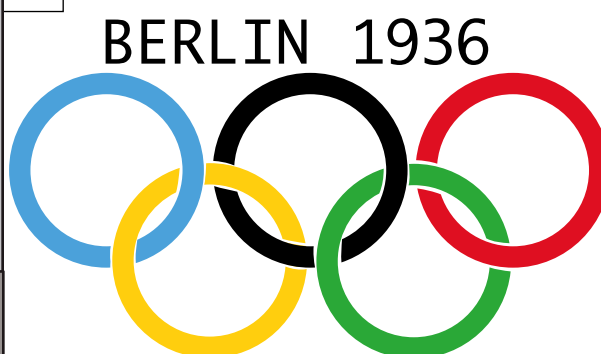

- Read the text and reorder the pictures.

Basketball is an old sport. In 1891 Dr. James Naismith, a P.E. teacher in an American School, invents an indoor game.

In the first version of the game, the players use a soccer ball. They throw the soccer ball in the basket and use a ladder to get the ball out of the basket. In modern basket, the basket is open at the bottom.

The game is very popular and becomes an Olympic sport in 1936 Games.

The most popular basket championship is in the USA.
